**Subject:** Mt. Newton water line

Dear Mayor and Council,

I have attended several meetings re the proposed water line along Mt. Newton Xrd., and feel that I have been somewhat confused and uninformed about the costs and the possibility of no fire hydrants being installed. I was also led to believe that if the petition was not completed the likelihood of being "ordered" to install water for Senanus as there was a health issue with the existing wells and water, would lead to the neighbourhood having to pay the full costs and the grants would not apply. I now understand that this is not entirely true and would like to have my name and that of my husband removed from the petition until some of the new issues are resolved.

Thank you,

Diana and Mike Abbott  
924 Mt. Newton Xrd.,  
Saanichton, B. C., V8M 1S2
